DukeStream

OIT's streaming media hosting service allows members of the Duke community to distribute media files via dedicated streaming servers. We currently offer two tracks for this service: *DukeStream Personal*, which supports QuickTime and QuickTime-compatible files, and *DukeStream Pro*, which supports both QuickTime and RealMedia-compatible files.

DukeStream Pro

Designed for departmental and group use. Students accessing this space need a faculty sponsor.

Up to 20GB of storage

Supports:

- ? QuickTime and QuickTime compatible formats
- ? Real
- ? Windows Media (coming soon)
- ? [About streaming \(why stream?\)](#)
- ? [Set up your DukeStream Pro space](#)
- ? [Preparing QuickTime content for streaming](#)
- ? [Uploading files using DukeStream Pro](#)
- ? [Linking to your DukeStream Pro files](#)
