

Duke Office of Information Technology

Web Services

The Office of Information Technology provides infrastructure and support for many of the Internet-based services that are used throughout the campus, including:

- ? [Blackwell Interactive](#), a resource for Web and Application Development services.

Centrally Supported Tools:

- ? [DukeWeb](#), the Web-based content management system that is behind this website and numerous others around campus.
- ? [Google Search Appliance](#), which makes the powerful search engine available to all Duke websites.
- ? [ViewsFlash](#), the free online survey tool available to any Duke affiliate.
- ? Content Management Systems, Cascade, Wordpress, Expression Engine and Drupal

Find out more about our Web-based services by visiting [Blackwell Interactive](#).
